To Friends of the United States of N^o America

Dear Friends.

Our dear friend Joseph Peitmeyer, a member of our two months meeting of Minden, stated to this meeting that he did not appear in any way, to be able to obtain a livelihood here, and it was therefore his intention to go to America to try to find some occupation there.

Having considered his case this meeting does not think it right to refuse granting him liberty to pursue his intention and recommends him to your Christian love and care.

Signed in and on behalf of the two months meeting of the Christian society of friends of Minden held the 7th of 7th month 1844.
