

The Overseers to whom was referred the Communication from a Committee of Sandy Spring Monthly Meeting, Ohio, dated 26th of 2^d month last Report. That as it appears from the information therein contained that the right of Membership of Joseph E. Bently, Anna his wife & three children had been regularly transferred to that meeting by a certificate from Indian Spring monthly meeting, Maryland, previous to the separation it is our Judgment that Sandy Spring monthly meeting Ohio be requested to consider the Complaint against Joseph E. Bently & the certificate issued by this monthly meeting in the 2^d month last for his children as being now withdrawn & likewise the Complaint against Robert Le Gaviguer provided he was disowned by Indian Spring Mo Meeting previous to its being dissolved which took place in the 3^d month 1830.

The Error in the above case has been ~~ascertained~~ by the Records of the late Indian Spring Monthly meeting being in possession of the Separatists & from incorrect information received by the Overseers respecting the time of their removal to Ohio —
