

Street Meeting -

The matter of visiting among our members being under the care of a Committee of the association for Christian work has not been considered by our Committee this year -

The spiritual life of the Meeting is generally good and we think some of our members have made progress in their individual experiences as they have been willing to consecrate themselves more fully to their Master in the work of the Church.

At the Light Street Meeting there has been a decided growth in life and power. All through the winter their Meetings have been occasions of much interest and the power of the Lord has been present to convict of sin and bring sinners to the Saviour for pardon and cleansing.

In the latter part of the 3rd month James R. Jones conducted a series of Meetings for two weeks, during which quite a number were able to confess Jesus.

Christ as their Saviour for the first time, the majority of these being young people - The members of the Meeting are quite active in religious work of some kind, such as College Meetings, teaching in Bible School &c.

Washington Meeting has been visited but very seldom this season, but the members living there are generally interested in the Meeting and have some encouragement and assistance from members of other Yearly Meetings living in Washington. Their Meetings so far as can be learned have been held in good life and interest.

Bearsden Meeting has only been visited once by members of the Committee since Yearly Meeting so that we are not very familiar with the condition of the Meeting - so far as known however it is fairly satisfactory -

in behalf of the Committee

Mary E. Cary

Edward L. Palmer
