

We have had a full opportunity with William
 H. Ellicott, to a good degree of satisfaction—

He informed us, that he is not in connection
 with the separatists, neither does he attend any
 of their meetings—He considers himself a mem-
 ber of the society of Friends, & it is his intention
 to continue in the practice of attending their
 religious meetings, & we believe that he is
 sincere therein—

We have taken the several circumstances
 of his case into our serious consideration, & are
 of the mind, that if the meeting can be satis-
 fied therewith, that the subject be discontinued—
 which we submit to the meeting—
