

N. Patterson Monthly Meeting for the Eastern Districts.
Distracts. The Committee of Men & Women prepared the case
of Indian Spring Preparations. On conferring together agree
to Report, That a Part of their Number attended that
Meeting to Satisfaction. It was held jointly (Men &
women sitting together) & it was thought best in consequence
of the small number of Male Members, that the Practice
should be continued at least for the Present, —
and believing that an advantage would be derived
from a change in the time of holding it, they felt a freedom
to suggest it for consideration, which was fully united
with, & it was concluded to hold the Preparations
Meetings in future at 10 o'clock instead of 11 as heretofore,
provided the Monthly Meeting concurs in these proposed
changes, — Which is submitted to the Meeting

Respect on behalf of the Committee

Wm Crocker
Eliza F. Fuller
