Dear Friends:

We are sending you a brief statement of the obligations resting upon your Finance Committee for the year beginning December 1, 1932, and ending November 30, 1933. Though we know a real difficulty exists, which makes it trying to receive an appeal for money, yet we urge as generous a response as you can make. We earnestly desire that every member will contribute to the support of the Meeting and its activities. The statement appended for your information is a summary. Detailed information will be furnished those who desire it.
