

Attendance of any First day Meeting was probably 35. The Attendance of Meetings by Members who have been at home or within convenient reach has been quite as good as usual & their interest in the Meetings and in each other and their evident enjoyment of these opportunities of Christian fellowship has been mutually helpful and encouraging.

The Ministry has been instructive & practical & helpful. We cannot report any marked evidence of the reception of Spiritual Gifts by any of our Members within this period, but there has been progress on the part of some in the exercise and development of Gifts heretofore received. We are not advised of any special new work having been entered upon during these four months.

Nor has our attention been directed as yet to any new fields for service available for the near future.

Light Street

There does not seem to be any change to note in the Spiritual Condition and life of the congregation at Light Street. The Attendance of the Meetings has been about the same as is usual during the Summer viz about 20 in the morning and 40 at night.

The Ministry appears to be acceptable to the Meeting. The return of Our Friend Geo C. Wise to Baltimore & his probable Attendance here, at least part of the time is to be noted with interest, and satisfaction. There is some evidence of the reception of Spiritual Gifts
