Margaret H. White

Waynesville

My very dear Cousin

5.8.1886.

Yours of the 19th last month afforded me much satisfaction, especially was the information of thy health being so good, gladly received. I am in usual health, Lizzie much better, although thin and pale. Our impulsive, warm hearted Kate, sympathized so much with her sister, that her health became considerably undermined last winter, is not at all well - but trust as the spring advances, they will both be them selves again.

I felt so much for dear Jane & Francis White, in the removal of their precious daughter. But from all I ever heard of her, trust she is enjoying a far better inheritance than this world could ever give, in the realms of eternal blessedness, above.
