Governor Richie,
State House,
Annapolis, Md,

Honorable Sir:

The eyes of 6,000,000 Negro voters are upon you chiefly because a horrible murder in your state has turned them that way, you have the greatest opportunity to get the good will of these people with their support, if you will but act as a governor for all the people in seeing that justice is done.

As managing editor of the International Negro press, distributing to 500 papers weekly from coast to coast, may I please have a word from you?

Sincerely,
Chappy Gardner
